

## Training Seminar on “Logistic and Development of Dry Ports”

Training Seminar on “Logistic and Development of Dry Ports” was held at the conference room of the Ports and Maritime Organization in Tehran on December 17<sup>th</sup>, 2014. Dr. Hanaoka, Associate Professor of Tokyo Institute of Technology gave a lecture regarding Japanese and Asian logistic and dry port for about 80 participants from the Ports and Maritime Organization. The enhancement of domestic industries including logistic function is among the five priority fields of Japanese technical cooperation scheme for Iran. At the Summit meeting between Iran and Japan last September, President Rouhani hoped for Japan's cooperation in environment and railroad fields, which are among the issues emphatically supported by the Japanese government.

Mr. Chiba, Minister of the Embassy of Japan and Mr. Takeuchi, Chief Representative of JICA Office in Iran, took part in this Seminar and delivered speeches together with Mr. Eslami, Director General of Ports Affairs of the Ports and Maritime Organization.
