

Training Seminar on Carbon Management in Petroleum Industry

The Training Seminar on Carbon Management in Petroleum Industry was held at Exploration Directorate, National Iran Oil Company in Tehran on 31st of January and 1st of February 2017.

Approximately 300 experts from the Iranian Governmental organizations, such as the Ministry of Oil, its affiliated companies, Department of Environment, research institutions and universities participated in this seminar. The Japanese experts delivered lectures on NAMA formulation plans, implementation of INDC and Introduction of Low-Carbon technologies, in order to present a better understanding on global warming countermeasures.

H. E. Dr. Mortazavi, Director General of HSE of the Ministry of Oil, Mr. Nakayama, Counsellor of the Embassy of Japan in Tehran and Mr. Nishiki, Director of Economic Infrastructure Development and Environment Division of Tokyo International Center took part in the opening ceremony and delivered speeches. H. E. Dr. Mortazavi expressed his gratitude for organizing this seminar. Then, H. E. Mr. Bitaraf, Vice Minister for Engineering, Research & Technology of the Ministry of Oil, joined the seminar and he also expressed his gratitude and expectations for further technical assistance from the Japanese government.
