

International Symposium on Earthquake Engineering & Disaster Management

Earthquake Engineering Expertise Cooperation Center and JICA held an International Symposium on Earthquake Engineering & Disaster Management in Tabriz on 18th November 2012 in order to disseminate information and raise awareness regarding Iran Northwest Earthquake, which occurred on 11th August, as well as to exchange techniques in this field.

Prof. Shiro TAKADA, Emeritus Prof. of Kobe University, Mr. Sugio IMAMURA and Ms. Tomoko SHAW, JICA Experts, delivered lectures on “Vulnerability of Residential Houses and Loss of Human life”, “Introduction of Japanese Earthquake Early Warning System” and “Disaster Awareness & Disaster Education”, respectively.

The hall was filled with some 280 eager students and professors of concerned universities and researchers and they could have a lively discussion with Japanese lecturers after their lectures.
